

Elephants have long tusks.  
They use their tusks to dig for food.  
They also play with their tusks.

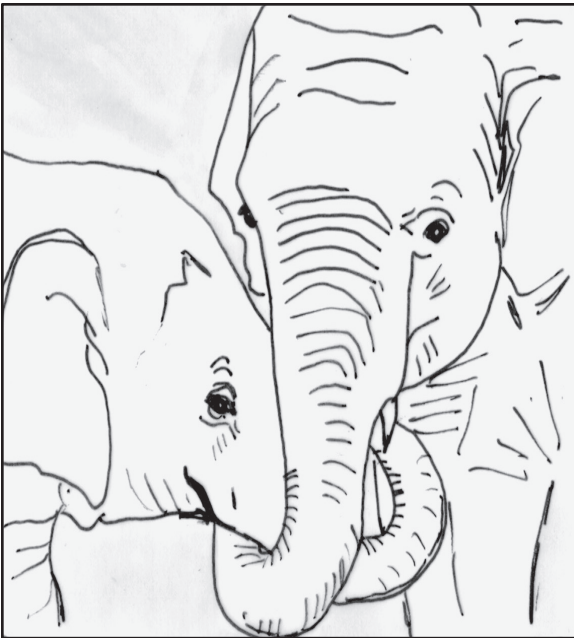

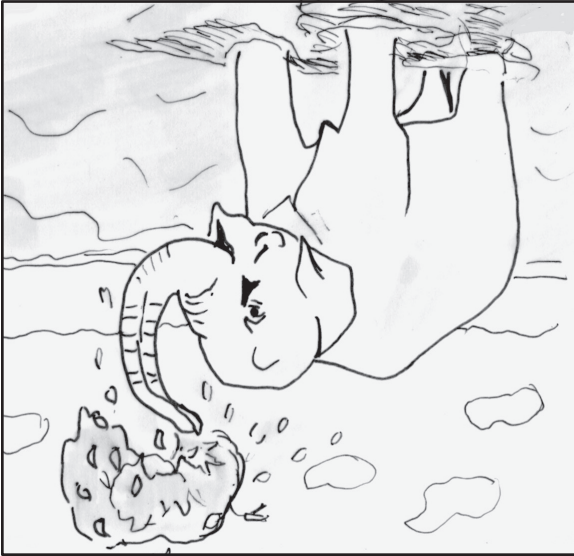

### What Do Elephants Have?

Elephants have big ears.  
They have good hearing.  
They flap their ears to cool off.

Elephants have trunks.  
A trunk is a long nose that helps them smell.  
They can do other things with their trunks, too.  
They can wash with their trunks.

They use their trunks to grab food.  
They use their trunks to put the food in their mouths.  
Elephants can hug each other with their trunks, too.
