Terrific Tips to Help Your 2-Year-Old Learn and Grow

How you can help your 2-year-old learn and grow:

• Give your child attention and praise when he follows instructions. Limit attention for defiant behavior. Spend a lot more time praising good behaviors than punishing bad ones.
• Teach your child to identify and say body parts, animals, and other common things.
• Do not correct your child when he says words incorrectly. Rather, say it correctly. For example, “That is a ball.”
• Help your child do puzzles with shapes, colors, or farm animals. Name each piece when your child puts it in place.
• Ask your child to help you open doors and drawers and turn pages in a book or magazine.
• Kick a ball back and forth with your child. When your child is good at that, encourage him to run and kick.

Act early by talking to your child’s doctor if your child:

• Is missing milestones for his or her age
• Doesn’t use 2-word phrases (for example, “drink milk”)
• Doesn’t know what to do with common things, like a brush, phone, fork, spoon
• Doesn’t copy actions and words
• Doesn’t follow simple instructions
• Doesn’t walk steadily
• Loses skills she once had

Don’t wait. Acting early can make a real difference! Visit cdc.gov/Concerned for more information.
