A Curriculum Guide to Books by

Meghan McCarthy

CITY HAWK: THE STORY OF PALE MALE

SEABISCUIT THE WONDER HORSE

POP!: THE INVENTION OF BUBBLE GUM

DAREDEVIL: THE DARING LIFE OF BETTY SKELTON

EARMUFFS FOR EVERYONE! HOW CHESTER GREENWOOD BECAME KNOWN AS THE INVENTOR OF EARMUFFS

THE WILDEST RACE EVER: THE STORY OF THE 1904 OLYMPIC MARATHON

Paula Wiseman Books
Simon & Schuster Children's Publishing
BACKGROUND/SUMMARY
A surprising story unfolded in New York City’s Central Park that captured the attention of people of all ages. A red-tailed hawk—an animal not usually seen in a city environment—settled in the area. Observers named this hawk Pale Male and his partner Lola. The two hawks built a nest on an apartment building across Fifth Avenue that could be seen by observers in the park. Each day from early morning until sunset the observers watched the nest, waiting for eggs to be laid, then waiting for the babies to hatch, and finally waiting to see the babies take flight. People called it a miracle that wild creatures could so easily settle in a man-made environment.

DISCUSSION QUESTIONS/ACTIVITIES
Key Ideas and Details
The questions and activities below draw on Common Core State Standards (CCSS) for reading informational text (RI) that ask children to ask and answer questions about a text, identify the main topic and key details that support it, and describe the relationship between a series of events, concepts, or ideas. Encourage students to cite evidence from the book when discussing their ideas.

1. Explain why Pale Male’s story was both surprising and interesting. Here are some questions to think about:
   • Why were New Yorkers surprised to see Pale Male?
   • What made Pale Male and Lola interesting to “the Regulars,” the bird watchers in Central Park?
   • Why is the story still interesting?
2. Have one person pretend to be one of the Regulars, while the rest of the group asks questions. The Regular should answer according to the information in the book. Here are two questions to get you started:
   • Why are you and the others called the Regulars?
   • What are you watching and waiting for?
3. Explain what was unusual about the location of Pale Male and Lola’s nest.
4. Why do you think the author called the book City Hawk?

Craft and Structure
To learn about craft and structure, the CCSS asks us to help students learn and understand vocabulary words and phrases, think about the features of nonfiction text, and assess the author’s point of view. The questions below emphasize these understandings.

1. Text Features. Examine and talk about the following features of the book:
   • Cover. Look carefully at the front and back covers of the book. Author and illustrator Meghan McCarthy made several decisions when she created this book cover.
     ◊ Why do you think she placed Pale Male in the center of the cover?
     ◊ Why is Pale Male looking directly at us?
     ◊ Why do you think the back cover shows a different time of day than the front cover?
   • Flaps. Examine both the front and back flaps.
     ◊ The front flap entitled “There’s a Hawk in the City!” gives a brief summary of the book.
       ◊ What is this story about?
       ◊ What questions do you have before reading the book?
       ◊ After reading the book, see if your questions were answered.
     ◊ The back flap gives information about the author and illustrator Meghan McCarthy.
       ◊ What other books has she written?
       ◊ Why do you think she decided to write about Pale Male?
   • “Learn More About Central Park,” a feature at the back of the book, gives more information about the setting—where the story takes place—and about the two architects that designed the park.
     ◊ Who were the two men who designed the park?
     ◊ What was the park like in its early years?
     ◊ How did it change for the worse?
     ◊ How was it restored and improved?
     ◊ Why do you think Meghan McCarthy decided to tell us so much about Central Park?
2. **Concept Circles.** (See *City Hawk* Concept Circles Reproducible Sheet at the end of this section.) The words in the circles are all used in the book *Pale Male*. Use the words in each circle to write about ideas in the book.

3. In the author’s note to *City Hawk* she writes that the Pale Male story is for the old and the young as well as the rich and the poor. She says that the story’s magic is for everyone. Do you agree? Why?

4. Compare the book you just read, *City Hawk: The Story of Pale Male* by Meghan McCarthy with *The Tale of Pale Male: A True Story* by Jeanette Winter. How are the books similar? How are they different? Here are some things you can discuss: the content, the illustrations, and the back matter.

**Writing**

CCSS emphasizes writing informative and explanatory text in the early grades. The writing activities below provide experience writing to give an opinion, to inform, and to explain a sequence of events.

1. **Pretend to be one of the Regulars.** Write several diary entries explaining how you spent your time in Central Park watching, thinking, and waiting. Write entries for two or three different days.

2. **Pretend that you are Pale Male.** Tell about your experience in New York City.

3. **Write poetry about Pale Male.** Pretend that you can ask Pale Male any questions you want and that he will understand you. Your poem can be a series of interesting questions or you can write your questions and Pale Male’s answers.

4. **Write a script or short play to perform.** The characters are two Regulars discussing Pale Male, Lola, and the babies. Here are some things you can talk about:
   - Central Park
   - Seeing Pale Male
   - Pale Male and Lola building the nest
   - Waiting for the eggs to hatch
   - The babies, Handsome and Gretel, learning to fly
   - Next spring in Central Park

Practice reading your lines before performing your play for your classmates.

**Extending the Experience of Reading the Book**

1. Make a text set of books about Pale Male. Gather and read picture book biographies of this famous hawk:
   - *City Hawk: The Story of Pale Male* by Meghan McCarthy
   - *The Tale of Pale Male: A True Story* by Jeanette Winter
   - *Pale Male: Citizen Hawk of New York City* by Janet Schulman

   Discuss how the books are similar and different.

2. Visit the website PaleMaleBook.com and click on “Pale Male Videos” to watch (1) an ABC News Report on Pale Male and Lola, (2) a preview of the PBS Nature documentary on Pale Male, and (3) a video about red-tailed hawks. What additional information have you learned?
CONCEPT CIRCLES

The words in the circles below are all used in the book *City Hawk*. On another sheet of paper, use the words in each circle to write about ideas in the book.

**Circle #1:**
Use the words in the circle to explain what surprised New Yorkers.

- CENTRAL PARK
- NEW YORKER
- WILDLIFE
- RED-TAILED HAWK

**Circle #2:**
Use the words in the circle to explain where and how Pale Male and Lola built their nest.

- PALE MALE
- LOLA
- TWIGS AND BRANCHES
- APARTMENT BUILDING

**Circle #3:**
Use the words in the circle to explain the activities of the Regulars.

- THE REGULARS
- CAMERA
- TELESCOPE
- EGGS

**Circle #4:**
Use the words in the circle to explain how the babies grew and learned to fly.

- HANDSOME AND GRETEL
- CHIRPED
- HOPPED
- FLEW

---

City Hawk: The Story of Pale Male
By Meghan McCarthy
Paula Wiseman Books
Illustrations © Meghan McCarthy

SIMONANDSCHUSTER.NET
BACKGROUND/SUMMARY
During the 1930s, when many people were suffering from tough economic times, they found momentary diversion at the racetrack. An unusual horse named Seabiscuit—a wild, lazy, angry, stubborn horse—was transformed from a loser to a winner through the loving care of his owner, trainer, and jockey. As a result, Seabiscuit went from being a battered underdog to being a celebrated hero, finding his way into the hearts of millions of people. This amazing horse went on to defeat the famous horse War Admiral in 1938, providing fans with a much-needed escape from their problems and a reason to cheer. Even President Roosevelt took time out from his schedule to follow this exciting race.

DISCUSSION QUESTIONS/ACTIVITIES
Key Ideas and Details
The questions and activities below draw on Common Core State Standards (CCSS) for reading informational text (RI) that ask children to ask and answer questions about a text, identify the main topic and key details that support it, and describe the relationship between a series of events, concepts, or ideas. Encourage students to cite evidence from the book when discussing their ideas.

1. What was life like for most people in the 1930s? How does the illustration at the beginning of the book show this?
2. Seabiscuit was changed from a wild, lazy, angry, stubborn horse to a winning racehorse. How did each of the following people help change Seabiscuit from a loser to a winner?
   • Charles Howard, Seabiscuit’s owner
   • John “Red” Pollard, Seabiscuit’s jockey
   • “Silent Tom” Smith, Seabiscuit’s trainer
3. How did people feel when Seabiscuit won the race against War Admiral? How does the author let you know this?
4. Do you agree with the author that “Seabiscuit was America’s hero”? Why?
5. Hot Seat! Put each of the following characters on the hot seat. That means that a student pretends to be a character in the book. Other students ask the character questions. Using information from the book, the student on the hot seat answers the questions the way the character would answer. For example, if a student is pretending to be Charles Howard, two questions he might be asked are “Why did you decide to buy Seabiscuit?” and “Why did you want Seabiscuit to race against War Admiral?”

Here are some characters to put on the hot seat:
• Charles Howard, Seabiscuit’s owner
• John “Red” Pollard, Seabiscuit’s jockey
• “Silent Tom” Smith, Seabiscuit’s trainer
• George “The Iceman” Woolf, the jockey who rode Seabiscuit in the race against War Admiral
• A fan of Seabiscuit—someone with “Seabiscuit-itis”

Craft and Structure
To learn about craft and structure, the CCSS asks us to help students learn and understand vocabulary words and phrases, think about the features of nonfiction text, and assess the author’s point of view. The questions and activities below emphasize these understandings.

1. Magnet summaries. (See Seabiscuit Magnet Summaries Reproducible Sheet at the end of this section.) Create magnet summaries of important topics in the story.
2. Mind Portraits: What Did People Think about Seabiscuit? (See Seabiscuit Mind Portraits Reproducible Sheet at the end of this section.) Show the points of view of different people mentioned in the story by creating mind portraits.
3. Examine the author’s note at the end of the book. What extra information does the author provide? How does this information help you understand how Seabiscuit became a hero and a champion?
4. Do you agree with the author that going to the racetrack was a good way for people to forget their troubles for a short time? Why?
5. Watch a video of the famous race when Seabiscuit defeated War Admiral in 1938 at: Meghan-McCarthy.com/Seabiscuit.html
Writing

CCSS emphasizes writing informative and explanatory text in the early grades. The writing activities below provide experience writing to give an opinion, to inform, and to explain a sequence of events.

1. RAFT Writing Activity. (See Seabiscuit RAFT Reproducible Sheet at the end of this section.) RAFT stands for Role, Audience, Format, and Topic. By shifting each of these features, we can think of interesting ways to write about Seabiscuit.

2. Seabiscuit really changed over time. Make a series of pictures showing how the horse changed. Then, underneath each picture, write about the change.

3. What is your opinion of Seabiscuit? Was he a hero? Write your thoughts about this horse.

4. Read Wonder Horse: The True Story of the World's Smartest Horse by Emily Arnold McCully. Write about how Jim Key, the Wonder Horse, was similar to and different than Seabiscuit.

5. Visit the website of author Meghan McCarthy at Meghan-McCarthy.com to learn more about her books, writing, and illustrating. Click on “All About the Books” to find out about the author/illustrator’s other books. Prepare a written summary of one of the author’s books. Be sure to tell the main idea of the book and the details that help readers understand this idea.
Create magnet summaries of important topics in the story. Here's how.

First, begin with a key word that explains the topic. You can think of this word as a magnet that attracts other related words. Second, list other words and phrases that describe and explain the magnet word. Third, use as many words and phrases as possible to write a magnet summary about the topic.

Here is an example:

**Magnet Summary:** In the beginning, Seabiscuit was a lazy, stubborn, angry horse. But with the help of his owner, who saw his potential, and his trainer and jockey, who knew how to care for him, he became a champion.

On a separate sheet of paper, try writing magnet summaries using these topics:

**Seabiscuit the Wonder Horse**

**By Meghan McCarthy**

Paula Wiseman Books

Illustrations © Meghan McCarthy

Simon & Schuster, Inc.
What did people think about Seabiscuit? You can show the points of view of different people mentioned in the story by creating mind portraits. First, draw a picture of the person—a face with features. Second, draw an empty face with no features. Instead, show what each person thinks about Seabiscuit—what’s on the person’s mind. Use both words and pictures.

For example, here is owner Charles Howard’s face. Then, in the empty face, we see his thoughts about Seabiscuit.

On separate sheets of paper, make your own mind portraits of these characters:

John “Red” Pollard
Seabiscuit’s jockey

“Silent Tom” Smith
Seabiscuit’s Trainer

George “The Iceman” Woolf
Seabiscuit’s jockey in the big race

Samuel Riddle
War Admiral’s owner

Seabiscuit the Wonder Horse
By Meghan McCarthy
Paula Wiseman Books
Illustrations © Meghan McCarthy
**Seabiscuit the Wonder Horse**

**RAFT Writing Activity**

RAFT stands for Role, Audience, Format, and Topic.

Role refers to who is doing the writing. Audience refers to who is receiving the writing. Format refers to the kind of writing being done. Topic refers to what the writing is about.

<table>
<thead>
<tr>
<th>ROLE</th>
<th>AUDIENCE</th>
<th>FORMAT</th>
<th>TOPIC</th>
</tr>
</thead>
<tbody>
<tr>
<td>Charles Howard, Seabiscuit’s owner</td>
<td>Samuel Riddle, War Admiral’s owner</td>
<td>Letter</td>
<td>I challenge War Admiral to try to beat my horse Seabiscuit in a race. Why I think Seabiscuit will win.</td>
</tr>
<tr>
<td>Samuel Riddle</td>
<td>Newspaper reporter</td>
<td>Interview</td>
<td>Why the goofy-looking Seabiscuit will not win.</td>
</tr>
<tr>
<td>Red Pollard</td>
<td>George “The Iceman” Woolf</td>
<td>Conversation</td>
<td>Please race for me. Ride Seabiscuit when he races War Admiral.</td>
</tr>
<tr>
<td>Charles Howard</td>
<td>Himself</td>
<td>Scrapbook of photos and items to remember about Seabiscuit</td>
<td>Memories of Seabiscuit and how he changed from a slow, angry horse to a champion and hero.</td>
</tr>
<tr>
<td>Fan of Seabiscuit</td>
<td>Herself</td>
<td>Diary</td>
<td>Why I went to the racetrack to root for Seabiscuit.</td>
</tr>
</tbody>
</table>

Here are the writing ideas from the chart above:
• As Seabiscuit’s owner, write a letter to Samuel Riddle, challenging War Admiral to a race with Seabiscuit and stating why he predicts Seabiscuit will win.
• As Samuel Riddle, respond to the questions of a newspaper reporter. Tell him why the goofy-looking Seabiscuit will not win.
• As Red Pollard, convince George “The Iceman” Woolf that he should ride Seabiscuit in this place when he races War Admiral.
• As Charles Howard, make a scrapbook of photos and items to remember how Seabiscuit changed from a slow, angry horse to a champion and hero.
• As a fan of Seabiscuit, write a diary entry about how you went to the racetrack to root for Seabiscuit when he raced War Admiral.

Try adding your own ideas to the chart. Share these ideas with your classmates.
BACKGROUND/SUMMARY
Walter Diemer was an accountant for the Fleer family candy and gum factory in Philadelphia, Pennsylvania, during the 1920s. His job was to balance the budgets and keep the accounts in order. Walter’s life abruptly changed when the company’s experimental laboratory—scientists with their beakers, pots, and tubes—moved right next to his office. At first, he just looked at the experiments. Later, he began to actively experiment with various gum mixtures, trying to make a new, more exciting gum. Walter’s persistence paid off when he created a gum that chewers could use to blow bubbles. The first batch of his gum quickly sold out and it went on to become a big seller. Walter Diemer’s invention added to the happiness of children around the world.

DISCUSSION QUESTIONS/ACTIVITIES

Key Ideas and Details
The questions and activities below draw on Common Core State Standards (CCSS) for reading informational text (RI) that ask children to ask and answer questions about a text, identify the main topic and key details that support it, and describe the relationship between a series of events, concepts, or ideas. Encourage students to cite evidence from the book when discussing their ideas.

1. Answer the following 5W and How questions about Walter Diemer’s invention:
   a. Who was Walter Diemer?
   b. What did he invent?
   c. When did he make this invention?
   d. Where did he make this invention?
   e. Why was the invention important to the company?
   f. How did he succeed in making this invention? What did he do?

   Use this information to think of a headline that could have announced Walter Diemer’s invention in the newspaper. For example: Perfect in Pink: Bubble Gum Sells Out in an Afternoon

   Then write a newspaper article explaining Walter Diemer’s invention. Use your headline as the title of the article. Include the information about the 5Ws and How in the article.

2. What problems did Walter Diemer have to solve in order to invent bubble gum? How did he solve these problems? Begin by explaining his first attempts to “add a bit of this and that.” Next, tell about the gum he created that became “hard as a rock.” Finally, describe his successful pink gum that sold out in a single afternoon.

3. What qualities did Walter have that made him a good inventor?

4. Why did people think Walter’s gum was exciting? Do you agree?

5. Why is Pop! a good title for this book?

Craft and Structure
To learn about craft and structure, the CCSS asks us to help students learn and understand vocabulary words and phrases, think about the features of nonfiction text, and assess the author’s point of view. The questions below emphasize these understandings.

1. Discuss the meaning of the word invent with students.

2. To invent something means to create something new, like a new product. Inventing involves using your imagination and creativity. Tell why Walter Diemer’s bubble gum is called an invention.

   Read more about the invention of bubble gum at the following websites:

   About.com. “The Invention of Bubble Gum”
   history1900s.about.com/od/1920s/qt/bubblegum.htm

   ideafinder.com/history/inventions/bubblegum.htm
Discuss what you learned. What new information did you learn about bubble gum? What questions do you have about bubble gum? How could you find the answers to your questions?

3. **List, Group, and Label.** Below are some words and phrases from *Pop!* Write these words and phrases on cards or pieces of paper. Group the words and phrases that belong together because they are about the same topic or idea. Then give each group a name. Explain your groups of words to your classmates. For example, *accountant, balance budgets,* and *add numbers* all describe Walter Diemer’s Job at the Fleer Family Factory.

- Philadelphia
- vanilla
- factory
- Fleer family
- accountant
- job
- numbers
- balance budgets
- gum
- experimental laboratory
- office
- sap
- beakers, pots, and tubes
- big secret
- wintergreen
- chewing gum
- Ancient Greeks
- American Indians
- spruce tree resin
- bubbles
- bubble gum blowers
- kettles
- gum experiment
- mixtures
- cinnamon
- coworkers
- inventor
- batch
- sold out
- truckloads
- delivered
- gum-blowing contests

4. Examine the text features on the pink pages at the end of the book. These pages provide extra information that is not in the main part of the book. Make a chart showing each text feature. Provide an example of the extra information that feature provides. A sample chart might look like this:

<table>
<thead>
<tr>
<th>TEXT FEATURE</th>
<th>EXTRA INFORMATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Additional Information about the Person the Book Is About (“Walter Diemer: More about the Man Behind Bubble Gum”)</td>
<td>Walter Diemer’s invention helped save the Fleer company. Many workers at the factory thought Walter Diemer’s invention was too heavy and would break the mixer.</td>
</tr>
<tr>
<td>Additional Facts (“Facts about Gum”)</td>
<td>Detectives use gum to help find criminals. They compare their teeth marks in the gum to their dental records.</td>
</tr>
<tr>
<td>“More Facts about Gum”</td>
<td>The largest bubble on record is twenty-three inches.</td>
</tr>
<tr>
<td>Source of Quotes (“Quotes in the Book Can Be Found in the Following Books and Articles”)</td>
<td>One article answers the question, Is chewing gum good for you? According to a <em>Boston Globe</em> article, sugarless gum can be good for your teeth because it causes you to produce saliva, which washes your teeth.</td>
</tr>
</tbody>
</table>

How does this information add to your understanding of the invention of bubble gum? Why do you think the author included this extra information?

5. Watch videos related to *Pop!*
   b. Another video on the author’s website shows the record holder for blowing the world’s biggest bubble gum bubble. Watch this at [Meghan-McCarthy.com/pop_recordholders.html](http://Meghan-McCarthy.com/pop_recordholders.html)
   c. Examine examples of gum art and watch videos of gum artists at work at [Meghan-McCarthy.com/pop_art.html](http://Meghan-McCarthy.com/pop_art.html)
Writing

CCSS emphasizes writing informative and explanatory text in the early grades. The writing activities below provide experience writing to give an opinion, to inform, and to explain a sequence of events.

1. At the end of the book, on the pink pages, the author wrote:
   American kids spend about a half billion dollars on gum each year. Everyone loves bubble gum! The next time you blow a big bubble, remember Walter Diemer. You have him to thank.
   Do you agree with the author that we should be grateful to Walter Diemer? Why?

2. Create three-panel comic strips showing events in the book. (See Pop! Comic Strips Reproducible Sheet at the end of this section.)

3. February 1 is Bubble Gum Day. On this day, kids get to chew bubble gum in school if they contribute fifty cents or more to a charity. To learn more about Bubble Gum Day, visit BubbleGumDay.com/Bubble_Gum_Day/Bubble_Gum_Day.html. Here you can read about the history of Bubble Gum Day, listen to a radio broadcast about it, and find activities to do on this special day. After learning more about Bubble Gum Day, write a letter to your teacher or principal about why your class should participate. Give reasons why celebrating this holiday would be a good idea. Use words like because, since, and for example as you explain your reasons.

4. Imagine that you were in one of the pictures in the book. Write about what you see, hear, feel, smell, and taste. Imagine that you can use all your senses to describe what is happening. As an eyewitness, describe what is happening. For example:
   • What if you were with Walter Diemer when he began experimenting with gum?
   • What if you were with Walter Diemer when he produced the perfect batch of bubble gum?
   • What if you were there on the first day Walter Diemer’s gum sold out in an afternoon?
   • What if you attended one of Walter Diemer’s gum-blowing contests he had for neighborhood kids?

5. Make a text set of books about inventors. Gather and read picture book biographies about inventors such as:
   • Thomas Edison
   • Leonardo da Vinci
   • Margaret E. Knight
   • Madam C. J. Walker
   • Philo Farnsworth
   • Bob and Joe Switzer
   • Benjamin Franklin
   • George Washington Carver
   • Alexander Graham Bell
   Write about one inventor: What was special about this person? What did he or she invent? Why? How?
   Write about two or more inventors: In what ways were they alike? In what ways were they different?

6. Visit the website of author Meghan McCarthy at Meghan-McCarthy.com to learn more about her books, writing, and illustrating. Click on “All About the Books” to find out about the author/illustrator’s other books.
In the comic strip below, show how Walter Diemer began by watching the experiments as his boss asked him to do, and then began to experiment himself.

In the second comic strip, show how Walter Diemer didn’t give up when his gum mixture turned hard as a rock.

In the third comic strip, show what happened when Walter’s gum sold out in one afternoon.
BACKGROUND/SUMMARY
Betty Skelton was known as “the first lady of firsts” because she broke speed, altitude, and distance records in the air, on the ground, and in the water. At a time when most women did not even consider flying airplanes, driving racecars, or training to go into space, Betty Skelton did just that. *Daredevil: The Daring Life of Betty Skelton*, by Meghan McCarthy, shows young readers how one woman dared to pursue her goals and dreams—even when they did not match those of most other girls growing up in the 1930s.

DISCUSSION QUESTIONS/ACTIVITIES

**Key Ideas and Details**
The questions and activities below draw on Common Core State Standards (CCSS) for reading informational text (RI) that ask children to ask and answer questions about a text, identify the main topic and key details that support it, and describe the relationship between a series of events, concepts, or ideas. Encourage students to cite evidence from the book when discussing their ideas.

1. Betty Skelton didn’t act the way most girls did in the 1930s. What did she do that was so unusual?

2. How was Betty Skelton’s life different from yours? For example, Betty wanted to be a navy pilot but couldn’t because she was a woman. Nowadays both men and women can be navy pilots.

3. Here’s your chance to create an imaginary interview. Imagine that you could ask Betty Skelton questions about her daring career and that she would answer you. One person in the class should pretend to be Betty Skelton. The others should ask her questions about her life. Include questions about big, important events like her first plane ride and small details like the fact that her dog, Little Tinker, always flew with her.

   While you are preparing your interview, you might be interested in listening to a real interview with Betty, which can be found at C-spanVideo.org/program/292945-1. See if you can add questions and answers based on what you heard Betty say.

4. Have students make a scrapbook of important events in Betty’s life. Draw three or four pictures showing Betty as a daredevil. You can show her in a plane, racecar, speedboat, or training with future astronauts. Write a sentence below each picture to describe what is happening. What would Betty want to remember? You could also download real pictures of Betty from the Internet by typing her name into a search engine website, such as Google. How does your scrapbook show that Betty was a daredevil?

**Craft and Structure**
To learn about craft and structure, the CCSS asks us to help students learn and understand vocabulary words and phrases, think about the features of nonfiction text, and assess the author’s point of view. The questions below emphasize these understandings.

1. **What does it mean to be daring?** This activity asks students to work together to discuss and order related words from *daring* to its opposite, *cowardly*. These words are polar opposites. But what words come in between? What word comes after *daring*? That is, it’s more like *daring* than any other word. What word comes next? Then what? Students should discuss the shades of meaning between the words as they order them to complete this activity.

   To begin, teachers and librarians can watch a seven-minute video showing a teacher using this activity, which is called a *semantic gradient*. You can find the video at ReadingRockets.org/strategies/semantic_gradients/

Then put the following words on cards:

- daring
- fearless
- cowardly
- afraid
- adventurous
- hotheaded
- shy
- cautious

Illustration © Meghan McCarthy
Discuss the meaning of each of the words. Then have the children work with a partner to order the words from most daring to least daring. As they agree on the order, have them paste the words on a long strip of paper.

As a class, review what the students have decided. The conversation is an important part of the activity. It is not necessary for everyone to agree on the order of the words.

2. Create a Word Splash. Randomly place a number of vocabulary words and phrases used in the book on a sheet of paper. Have the students connect two of the words and use them in a sentence that tells about Betty Skelton. The sentences can be oral or written and illustrated. Some words you can use are:
   - metal plane
   - navy base
   - amazing
   - legal
   - license
   - career
   - aerobatic flying
   - fly a plane
   - preferred
   - inverted ribbon cut
   - barefoot
   - “L’il stinker”
   - altitude record
   - racecar
   - broke the women’s record
   - astronauts
   - Mercury Seven
   - Look magazine

Here’s a sample sentence using two items from the list:
During Betty Skelton’s amazing career, she became famous for the inverted ribbon cut, a flying stunt.

3. Examine the nonfiction text features in the book. Make a chart showing each text feature and what that feature tells the reader. A sample chart might look like this:

<table>
<thead>
<tr>
<th>TEXT FEATURE</th>
<th>EXTRA INFORMATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Front Cover</td>
<td>Title, author, illustrator</td>
</tr>
<tr>
<td>Back Cover</td>
<td>Pictures that give clues about what the book is about</td>
</tr>
<tr>
<td>Title Page</td>
<td>Title, author, publisher</td>
</tr>
<tr>
<td>Fun Facts</td>
<td>Extra information about Betty Skelton that is not in the main text</td>
</tr>
<tr>
<td>Quotes</td>
<td>Betty Skelton’s exact words</td>
</tr>
<tr>
<td>Time Line</td>
<td>Events in Betty Skelton’s life from birth to death</td>
</tr>
</tbody>
</table>

4. Get some insight into how the author/illustrator Meghan McCarthy paints her illustrations. Watch the following two videos:
   a. “Betty Skelton Painting in Progress” at YouTube.com/watch?v=x9t3yNks2kw shows how McCarthy painted the copy of the Look magazine cover that appears in the book.
   b. “Betty Timelapse” at YouTube.com/watch?v=6M6EsAxp8DY shows the development of a painting over time. This is the painting of Betty in 1951 when she succeeded in breaking an altitude record.
Writing
CCSS emphasizes writing informative and explanatory text in the early grades. The writing activities below provide experience writing to give an opinion, to inform, and to explain a sequence of events.

1. What is your opinion of Betty Skelton? Do you admire her because she was a daredevil or do you think she was foolish to take so many risks? Write your opinion and tell why you think the way you do.

2. Draw and write about why Betty Skelton was called a daredevil. Explain why people thought she was daring.

3. Tell how Betty Skelton learned how to fly and then became a stunt pilot. Use words like first, next, and finally to explain what happened. Check to see that the order of events is correct.

4. Give your opinion of this book. Give reasons to explain your opinion.

5. Using an illustration in the book showing two or more people, imagine that these people could talk. What would they say? Write a one-page play with two or more characters based on the picture. Act it out with a partner or partners.

   For example, using the picture of Betty and her father, have them talk about why they agreed she should take her first flight at age twelve. Here’s an example of how to begin:

   Betty: Dad, I cannot tell you how excited I am to fly. Even though I am only twelve, I know a lot about flying. I know I am ready to fly by myself.
   Dad: You cannot tell your mother about this. She would be very upset.
   Betty: Okay, Dad, you have my word. I know it’s not legal, so we’ll keep this a secret.
   Dad: Let me boost you up into the plane. Good-bye!
   Betty: Dad, this is amazing. It’s my dream come true. I know I want to be a pilot. I will not change my mind.

Extending the Experience of Reading the Book
1. Make a text set of books about woman pilots. Gather and read picture book biographies of these pilots:
   • Bessie Coleman
   • Amelia Earhart
   • Blanche Stuart Scott
   • Harriet Quimby
   • Ruth Law

2. Visit the website of author Meghan McCarthy at Meghan-McCarthy.com to learn more about her books, writing, and illustrating. Click on “All About the Books” to find out about the author/illustrator’s other books.
BACKGROUND/SUMMARY
Earmuffs are such a commonplace part of our winter clothing that we might take them for granted. Yet in the past, someone invented them. It wasn’t Chester Greenwood, even though today he is known as the inventor of earmuffs. In fact, the state of Maine voted to name a day in his honor. Every year on December 21, Chester Greenwood Day is celebrated. A parade is held in his honor on the first Saturday of December in his hometown of Farmington, Maine. In this humorously written and illustrated story, we learn what’s not quite true, and what we know for sure about this useful invention. Along the way, readers learn about muffs, patents, and—oh, yes!—the difference between inventing something and improving on it. Most important, we learn that sometimes our past is imperfectly remembered.

DISCUSSION QUESTIONS/ACTIVITIES

Think about the Title and Subtitle.
The title and subtitle of this book provide readers with useful clues to its content. By discussing them both along with the content, students will see how they can be used to think about the key ideas in the book.

1. Think about the title of the book, Earmuffs for Everyone!
   • How do the illustrations on the inside front cover and the title page show that earmuffs are for everyone?
   • What other information do these illustrations give you about earmuffs?

2. Think about the subtitle of the book, How Chester Greenwood Became Known as the Inventor of Earmuffs. Discuss the following questions in order to consider the sequence of events that explain how this happened:
   • Who else, besides Chester, developed and changed earmuffs? How?
   • What improvements did Chester Greenwood make to earmuffs? How did this improvement change earmuffs?
   • Why did Chester get a patent on his improvements?
   • How is Chester Greenwood’s story like the story of Thomas Edison and the lightbulb?
   • How did a Life magazine article build Chester’s reputation as an inventor?
   • How did Mickey Maguire and a journalist friend help make Chester Greenwood Day possible? How is the day celebrated?

3. Creating a Sequence Ladder. After discussing how Chester Greenwood became known as the inventor of earmuffs, have the students complete a sequence ladder showing which four events they think are most important. Students should include the events in the order in which they occurred. Encourage students to both write and draw about their selected events in the blank sequence ladder activity sheet at the end of this section. Use the four events below as samples of what to include in the sequence ladder.

How Chester Greenwood Became Known as the Inventor of Earmuffs

<table>
<thead>
<tr>
<th>LAST</th>
<th>Mickey Maguire and a journalist friend championed the cause of creating Chester Greenwood Day in Maine. It became official in 1977. Every year this day is celebrated.</th>
</tr>
</thead>
<tbody>
<tr>
<td>THEN</td>
<td>Two years after his death, a Life magazine article referred to Chester as the inventor of earmuffs. No mention was made of the other inventors.</td>
</tr>
<tr>
<td>NEXT</td>
<td>Chester used his good business skills to sell earmuffs in Canada.</td>
</tr>
<tr>
<td>FIRST</td>
<td>While many people contributed to the invention of earmuffs, Chester Greenwood got a patent for his improvement—a steel band that held the mufflers in place.</td>
</tr>
</tbody>
</table>
4. The book ends this way:
   “And that’s how the story goes. Chester may not have created the original earmuff...but he made it better. Sometimes that’s what makes all the difference.”

Do you agree? Does Chester Greenwood deserve to be known as the inventor of earmuffs? Why?

5. Design your own earmuffs. What changes and improvements would you make? Draw a picture of yourself with your newly designed and improved earmuffs. Write about the changes and improvements you made.

Craft and Structure
To learn about craft and structure, the CCSS asks us to help students learn and understand vocabulary words and phrases (RI.K–3.4), think about the features of nonfiction text (RI.K–3.5), and assess the author’s point of view (RI.K–3.6). The questions and activities below emphasize these understandings.

6. Using Illustrations and Words to Learn New Vocabulary Words. The author uses both illustrations and words to explain the meanings of words the reader might not know. Look at the example of “Muff” below to see how words and illustrations work together to create meaning. The first example is done for you.

   **MUFF**
   What the illustrations show us:
   [Image of muff and individuals wearing them]
   What the words tell us: The words tell us that people wore muffs to keep their hands warm.

   **PATENT**
   What the illustrations show us:
   [Image of patent document]
   What the words tell us:

   **IMPROVEMENT**
   What the illustrations show us:
   [Image of improvement process]
   What the words tell us:

   **SUFFRAGE MOVEMENT**
   What the illustrations show us:
   [Image of suffrage movement]
   What the words tell us:

7. Using Illustrations and Words to Explain New Vocabulary Words. Use the same technique as author Meghan McCarthy to explain some words used in the book. First, discuss the meaning of the words. Then write and draw about it. See the Illustrations and Words Activity at the end of this section.

8. What Do You Think Really Happened? How Certain Are You? In “A Note about This Book,” the author tells us it was hard to separate fact from fiction when learning about Chester Greenwood. She asks, “So what can we trust when everyone who knew Chester is dead and the newspapers and magazines since the 1940s reported inaccuracies?”

   In the book, the author uses these words to show her uncertainty (what she isn’t sure of):
   - As the story goes...
   - Obviously, it isn’t quite true...
   - People seemed to remember...

   The author uses these words to show her certainty (what she is sure of):
   - What we do know for sure is...

   Here are some more words that show uncertainty and certainty:

<table>
<thead>
<tr>
<th>Uncertainty</th>
<th>Certainty</th>
</tr>
</thead>
<tbody>
<tr>
<td>I doubt</td>
<td>I believe</td>
</tr>
<tr>
<td>Probably</td>
<td>It must be</td>
</tr>
<tr>
<td>It is possible that</td>
<td>Definitely</td>
</tr>
<tr>
<td>It could be that</td>
<td>It’s true</td>
</tr>
</tbody>
</table>

   The author asks us, *What do you think really happened?* Write your answer to this question. Use the words in the box above to help you explain what you doubt and what you are certain about.
Writing
CCSS emphasizes writing informative and explanatory text in the early grades. The writing activities below provide experience writing to give an opinion (W.K–3.1), to inform (W.K–3.2), and to explain a sequence of events (W.K–3.3).

9. Should your state join the citizens of Maine in celebrating Chester Greenwood Day? What is your opinion? Do you admire the usefulness of earmuffs? Do you think Chester Greenwood’s story should be remembered? Write your opinion and explain why you think the way you do.

10. Explain how Mickey Maguire, a journalist friend, and the congressmen in Maine helped make Chester Greenwood Day a yearly celebration. What did they do in order to succeed? First, draw a series of illustrations showing what these people did. Second, write about each of their efforts. Third, explain what you think of their success.

<table>
<thead>
<tr>
<th>Mickey Maguire</th>
<th>Journalist</th>
<th>Congressmen</th>
</tr>
</thead>
</table>

11. Bring some of the people in the book to life by imagining that they could talk. What would they say? Imagine the following conversations:

- Chester Greenwood convinces his grandmother to make earmuffs out of wire and cloth.
- Chester Greenwood tells a newspaper reporter about all his different products and improvements.
- Mickey Maguire and a journalist discuss the stories they made up about Chester Greenwood.
- Mickey Maguire convinces a Maine congressman to vote for Chester Greenwood Day.

With a partner, write down one of these conversations. Practice reading this conversation, and then share it with your classmates.

12. Create a made-up story that Mickey Maguire might have told to drum up excitement about Chester or a “terrible, wicked yarn” that Mickey’s journalist friend might have told about Chester. Exaggerate Chester’s good qualities and deeds. Consider these questions:
- How far beyond Canada did Chester sell his earmuffs?
- How many improvements did Chester make to earmuffs and other inventions?
- How many hours a day did he work in his factory?
- How good a businessman was he? How much money did he make?

Extending the Experience of Reading the Book
13. Make a text set of books and articles about inventors. Gather and read picture book biographies of inventors such as the ones listed below:

- Thomas Edison
- Margaret E. Knight
- Orville and Wilbur Wright
- Madam C. J. Walker
- Benjamin Franklin
- Temple Grandin
- Alexander Graham Bell
- Ruth Wakefield
- Leonardo da Vinci
- Mary Anderson
- Bill Gates
- Patsy O. Sherman
- Steve Jobs
- Ann Moore
- Samuel Morse
- Harriet Irwin
- Henry Ford
- George Washington Carver

In groups, discuss your reading. What did each person invent? What qualities do these inventors have in common?

14. Check out these websites about kids inventing:
- Kids Invent! at kidsinvent.org
- Invent Help at inventhelp.com/links/inventing-for-kids-parents-and-teachers.php
- The Science Spot Kid Zone at sciencespot.net/Pages/kdzinvent.html
- The US Patent and Trademark Office Site for Kids at uspto.gov/kids

15. Read Pop! The Invention of Bubble Gum, another book about an inventor by author Meghan McCarthy. Compare Pop! with Earmuffs for Everyone! How are two books similar? How are they different?

16. Learn about other books by Meghan McCarthy by visiting her website at meghan-mccarthy.com/homepage.htm
LEGAL
A legacy is something inherited or received from someone who lived in the past. In Chester Greenwood’s case, his legacy was the improvement of earmuffs.

ILLUSTRATIONS: Show people celebrating Chester’s legacy.

WORDS: Explain why many people wanted Chester’s legacy to live on.

INVENTOR
An inventor is a person who creates something useful for the first time.

ILLUSTRATIONS: Show the earmuffs produced by different inventors.

WORDS: Describe the earmuffs created by different inventors.

PUBLICITY
Publicity is something that attracts a great deal of attention, like being mentioned on radio and TV.

ILLUSTRATIONS: Show what people do on Chester Greenwood Day that attracts publicity.

WORDS: Explain how the celebration of Chester Greenwood Day brings publicity to the state of Maine.
BACKGROUND/SUMMARY
The first Olympic marathon in America was a wild, wild race. Why? There were many strange and bizarre happenings.

First, the route was loaded with dust clouds, stirred up by cars and bicycles that followed behind the runners. Because of all this dust, runners could barely breathe or see clearly. Second, there was the questionable behavior of several of the runners. One runner rode part of the way in a car and even claimed to win when he reached the finish line. Another stopped to talk with people along the way and even stopped for a while in an apple orchard to eat some apples. Another runner was chased a mile off course by an angry dog. And the wildest, strangest thing of all, the winner of the race was given strychnine—a type of rat poison—by his trainers to get him to run faster. Surprisingly, he won, though he couldn’t even stand up to receive the prize.

How did all this unfold? Writer and illustrator Meghan McCarthy brings us back to the year 1904, when the Olympic Marathon was part of the World’s Fair in St. Louis, Missouri, and thirty-two runners competed to win the race. Her words and illustrations bring to life this wild time.

DISCUSSION QUESTIONS/ACTIVITIES
Key Ideas and Details
The discussion questions and activities below draw on Common Core State Standards for reading informational text (RI) that ask children to ask and answer questions about key details in a text (RI.K–3.1), identify the main topic and key details that support it (RI.K–3.2), and describe the relationship between a series of events, concepts, or ideas (RI.K–3.3).

1. Where and when did the first Olympic marathon in America take place?

2. The runners faced many difficulties. Tell how they were affected by the following:
   - The temperature that day
   - Dust clouds
   - Water supply
   - Food supply
   - Cars and bicycles

3. Interviewing the Runners/Using a Q-Chart to Develop Questions. (See The Wildest Race Ever Q-Chart Reproducible Sheet at the end of this section.) Have students imagine they could interview Thomas Hicks after he won the race. Ask them to use a Q-Chart to develop their interview questions. To use the Q-Chart, students select one word from the left-hand column and one word from the top row to create a question. For example, students could ask Hicks, How did you prepare for the race? or What will you do in the future to better prepare yourself for a race?
Have one student pretend to be Thomas Hicks and answer the questions posed to him. Other runners students could interview are (1) Fred Lorz, who pretended to win the race; (2) Len Tau, who was chased by an angry dog, and (3) Felix Carvajal, who stopped frequently along the way.

4. **Who’s Who at the Finish Line.** (See *The Wildest Race Ever* Who’s Who Reproducible Sheet at the end of this section.) At the beginning of the book there are pictures of ten of the runners in the race and reasons why they might or might not win. Using the same pictures of these runners, write about the results of the race for each one. How did they do at the finish line?

   After completing this Who’s Who, discuss the race from start to finish.
   - When you began reading the book, who did you think would win the race? Why?
   - In the end, who came in first, second, third, and fourth?
   - What advice would you give the trainers for the next Olympic marathon?

5. At the end of the book the author wrote the following: *Every runner in the 1904 marathon accomplished something huge.* What do you think? Do you agree or disagree? Why?

**Craft and Structure**

To learn about craft and structure, the Common Core State Standards asks us to help students learn and understand vocabulary words and phrases (RL.K–3.4), think about the features of nonfiction text (RL.K–3.5), and assess the author’s point of view (RL.K–3.6). The questions and activities below emphasize these understandings.

6. **Be a Word Detective.** (See *The Wildest Race Ever* Word Detective Reproducible Sheet at the end of this section.) The author uses both illustrations and words to explain the meanings of words the reader might not know. Use the clues in the illustrations and the words to figure out the meaning of each underlined word. Then after a class discussion, revise your definitions if necessary.

7. **Word Sort.** (See *The Wildest Race Ever* Word Sort Reproducible Sheet at the end of this section.) Several words used in the book “go together” because they are about the same thing. Sort the list of words into categories. For example, *runners* and *reporters* both go in the category of *People at the Race*.

8. **Looking at Front and Back Matter.** The author provides additional material to look at and think about in both the front and the back of the book. Take time to examine these features and consider how they add to your understanding of the 1904 Olympic marathon.
   - **Endpapers:** With a partner, examine the postcards from the 1904 World’s Fair in St. Louis in the front and back of the book. A magnifying glass will help you examine them. Here are some questions to discuss:
     - What do you notice about the words? Can you read the words? If so, what do they say?
     - Can you identify who sent the card? Can you identify the person it was sent to?
     - Why do you think the card was sent?
   - **The Marathon Runners.** At the end of the book, what additional information does the author give you about Felix Carvajal, Albert Corey, and Thomas Hicks?
     - **At the 1904 World’s Fair—At the Pike:** The Pike was a mile-long span at the fair that contained rides and elaborate attractions. With a partner, discuss these questions:
       - What interesting things could visitors see at the Pike?
       - In what way was it like a carnival?

**Writing**

Common Core State Standards emphasize writing informative and explanatory text in the early grades. The writing activities in this section provide experience writing to give an opinion (W.K–3.1), to inform (W.K–3.2), and to explain a sequence of events (W.K–3.3).

9. **Create Your Own Postcard.** (See *The Wildest Race Ever* Create Your Own Postcard Reproducible Sheet at the end of this section.) Have the students imagine they were at the 1904 Olympic marathon. Have them create a postcard of a “wild” part of the race. On the back they can write to a friend explaining what they saw and why it was the wildest race ever.
10. Drawing and Writing Events in Sequence. In the book, several events happen at the same time. The author uses the word *meanwhile* to show this. Create three large boxes for drawing and writing. Use the example of the boxes below to show events happening at the same time.

<table>
<thead>
<tr>
<th>Len Tau was chased off course.</th>
<th>Meanwhile... Felix Carvajal stopped along the way.</th>
<th>Meanwhile... Thomas Hicks’s trainer gives him rat poison.</th>
</tr>
</thead>
</table>

11. Writing a Letter with Suggestions. Write a letter to the president of the 1904 World’s Fair explaining three changes you think should be made at the next Olympic marathon to make the event safer. Consider some of the following ideas:
- Making water and food available
- Making the route safer
- Requiring athletic clothing
- Regulating the behavior of trainers

12. Write a Poem for Two Voices. These poems are designed to be read by two people. For example, the voices could be Thomas Hicks and his trainer. Begin with a line in the middle of the page that is read by both. Then write lines for Hicks to speak, followed by lines for the trainer and his thoughts.

Here is an example of how to begin:

<table>
<thead>
<tr>
<th>Hicks</th>
<th>Both</th>
<th>Trainer</th>
</tr>
</thead>
<tbody>
<tr>
<td>We are ready for the marathon.</td>
<td>I have trained hard but only on flat ground. The hills will be easy for me.</td>
<td>I will follow behind you, watching to see you run and carrying special medicine.</td>
</tr>
</tbody>
</table>

Continue this poem, telling what happened next. Use the same format—a line read by both speakers, followed by lines by each speaker. Then practice reading it with a partner.

Extending the Experience of Reading the Book

13. Watch author Meghan McCarthy page through and comment on the book at https://www.youtube.com/watch?v=rkkZ8DvW9Q4

14. Look at additional postcards of the 1904 World’s Fair in St. Louis at https://www.google.com/search?q=postcards+of+the+1904+world%27s+fair+in+st.+louis&client=firefox-a&hs=ofh&rls=org.mozilla:en-US:official&channel=np&source=lnms&tbm=isch&sa=X&ved=0CAgQ_AUoAmoVChMI7YQ6PacxwIVShs-Ch3VagYK&biw=1280&bih=597

15. Read other books by Meghan McCarthy:
- *City Hawk: The Story of Pale Male*
- *Seabiscuit the Wonder Horse*
- *Pop! The Invention of Bubble Gum*
- *Daredevil: The Daring Life of Betty Skelton*
- *Earmuffs for Everyone!: How Chester Greenwood Became Known as the Inventor of Earmuffs*

Imagine you could interview Thomas Hicks after he won the race. To use the Q-Chart, select one word from the left hand column and one word from the top row to create a question. For example, *How did* you prepare for the race? or *What will* you do in the future to better prepare yourself for a race?

One student can pretend to be Thomas Hicks and answer the questions. Other runners that could be interviewed are Fred Lorz, who pretended to win the race; Len Tau, who was chased by an angry dog, and Felix Carvajal, who stopped frequently along the way.

<table>
<thead>
<tr>
<th>Is</th>
<th>Did</th>
<th>Can</th>
<th>Would</th>
<th>Will</th>
<th>Might</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Who</strong></td>
<td></td>
<td></td>
<td></td>
<td></td>

<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Why</strong></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
WHO’S WHO AT THE FINISH LINE?

Using the pictures of these 10 runners, write about the results of the race for each one. How did they do at the finish line? Who came in first, second, third and fourth?

Thomas Hicks — #20
Albert Corey — #7
William Garcia — #Unknown
Fred Lorz — #31
Sam Mellor — #10
John Lorden — #Unknown
Felix Carvajal — #3
Arthur Newton — #12
Jan Mashiani — #36
Len Tau — #35

The Wildest Race Ever: The Story of the 1904 Olympic Marathon
By Meghan McCarthy
Paula Wiseman Books
BE A WORD DETECTIVE

Use the clues in the illustrations and the words below to figure out the meaning of each underlined word.

Thousands of people sat on risers while anxiously awaiting the start of the race.

I think **risers** means:

Clues from the picture:

The runners **rounded** the stadium. Some ran harder than others.

I think **rounded** means:

Clues from the picture:

“The streets were inches deep in dust,” Hicks’s trainer remarked, “and every time an auto passed, it raised enough dust to **obscure** the vision of the runners and choke them.”

I think **obscure** means:

Clues from the picture:

**Meanwhile...**Mellor was in the lead but was experiencing severe **cramping**. He was running slower...and slower...and slower!

I think **cramping** means:

Clues from the picture:

SIMONANDSCHUSTER.NET
CREATE YOUR OWN POSTCARD

Imagine you were at the 1904 Olympic Marathon! On the **front** of the postcard draw a picture of a “wild” part of the race. Label your picture, telling where and when this event happened and who is in it. On the **back** you can write to a friend explaining what you saw and why it was the wildest race ever. Then cut out the panels on the dashed lines and glue or tape them back-to-back to create your own postcard.

**FRONT:**

**BACK:**
