

# Trane Technologies

Trane Technologies and RIF are in their second year partnering together to build sustainable futures through literacy. From collaborating on a content resource platform to engaging employees in bringing books and resources to their local community, RIF and Trane Technologies are supporting children in understanding their planet and inspiring them to care for it now and in the future.

- **Historical Partnership**

- 2 year partnership with national footprint

- **2021-2022 School Year**

- Implemented Read for Success program across six schools
- Launched Sustainable Futures Center
- Activated Trane Technologies employees across 20 locations for Back-to-School Literacy Kit assembly

- **Impact**

- 300,000+ students reached through print and digital resources
- 36,000 books added to home libraries
