

What's My Character Thinking?

Directions: Sometimes stories do not tell us exactly what the character is thinking. We can imagine what the character might be thinking by noticing what has happened so far. Select a page from the book you are reading. Pause and think about what the character might be thinking on this page.

Write your character's thoughts in the speech bubbles below.

Think about:

- What just happened? So, what might the character be thinking?
- What words are your character saying in their head?
