

# Triangle

## VOCABULARY

| Word     | Student-friendly definition                                                      |
|----------|----------------------------------------------------------------------------------|
| big      | when you/or something is larger than most other things.                          |
| block    | when you stop something from moving or getting through.                          |
| medium   | when you/or something is not too big and not too small, but right in the middle. |
| small    | when you/or something is little or take up only a tiny space.                    |
| sneaky   | when you try to do something quietly or secretly so no one notices.              |
| triangle | when you have a shape with three sides and three corners.                        |
