

The Apple Picking Song

Come with me let's climb the apple tree.

Come with me. Come with me.

Come with me let's climb the apple tree.

Come with me. Come with me.

Red apples grow on trees

They are so good to eat

You bake them in a pie

Or eat them with peanut butter.

Come with me let's climb the apple tree.

Come with me. Come with me.

Look at us now we're climbing up the tree

What'll we see. What'll we see

The apples look so red. An apple on my head.

We'll pick them when we can.

Two apples in my hand.

Come with me let's climb the apple tree.

Come with me. Come with me.

Look at us now we're climbing up the tree

What'll we see. What'll we see

Apples are fun to toss.

We can put them in a sauce.

Let's find an apple tree

Apples are so good to eat.

Come with me let's climb the apple tree.

Come with me. Come with me.

Look at us now we're climbing up the tree

What'll we see. What'll we see

Picking apples off the apple tree.

Filling the basket, filling the basket.

Picking apples off the apple tree.

Filling the basket filling the basket.

Word Study: Read and circle all the words with two syllables.

Make a list of words containing the long e sound.
