## TIME TO READ!

**Before reading, make predictions:** Why do you think this polar bear needs rescuing? Who takes care of wild animals in need? Where do you think this bear lives?

**While reading, make connections:** Have you read

other stories about animals being rescued? If so, what type of animals? Why did they need help? Have you

or anyone you know rescued an animal or adopted an animal from a shelter?

**After reading, ask questions:**

- ◆ What were the *differences* between Kali's natural habitat and the zoo habitats?
- ◆ Why did the man think Kali wouldn't survive without his mother?
- ◆ How did Kali *adapt* to, or change to fit, his new environment?
